

Murana

Arabian Stud

A new Adventure...

Text by Michaela Weidner & Urszula Łęczycka | Photos by Michaela Weidner, Elisa Grassi, Joanna Jonientz

Another season is passing by and the 2011 was again a very busy year for Murana Arabian Stud in Germany. It began in February with foaling time with a very good kick out, the first Muranas Jassehr filly was born on the Farm out of Nirwana Jamaal (by Bey el Jamaal): an amazing grey Muranas Nooriyah was more than expected, as she looks around very pretty with huge eyes, long neck and a super attitude with outstanding movements that speak well for her promising show future, but this was not the last filly to arrive! The outstanding three more followed her: a very typey grey by Muranas Jassehr out of Nioba, being maternal halfsister to Multichampion Mare Muranas Nasheetah. Then, after long seven years of waiting for another daughter out of Muranas' famous and outstanding Premium and Elitemare Jana el Bri a new Superstar was born: Muranas Jaleelah by Monther al Nasser! This chestnut filly arrived so refined pretty, with a long neck, super body, and outstanding movements, she was shown already at her first year on the ground and awarded with "Premiumfoal VZAP" Title, but for sure you will see more of her in the future. As a maternal halfsister to Multichampion Muranas Jassehr she descends from an amazing family and so success is for her a "family tradition".

Last but not least the next outstanding individual was born, Muranas Majesta by Muranas Jassehr - very feminine and extreme, ultra exotic grey filly with super attitude and movements, sure also an eye catching competitor in the future. Her mother is the young outstanding broodmare Mamuschka, who already produced another Superstar for Murana Stud. Her first foal Muranas Mabrouka by Murwan al Shaqab, opened a new door for Murana Stud when Simone Leo and Zico Guardia saw her and immediately felt in

love... Soon after the talk with their friend - Leandro from Haras Cruzeiro (Brasil) the decision was made that this wonderful filly went already to Brasil to open a new capture. She will be shown next year for her new owner, and sure will be very successful in South America. Michaela and Michael are very proud that such a famous farm chosen Muranas Mabrouka for their breeding and show program and both are very excited to see her next year competing in her new homeland.

Muranas Nooriyah

Jassehr

Coming to the colts - Muranas Jameel started also his career, shown for the first time directly from the pastures and was awarded with a Gold Junior Champion colt in Ströhen, with the highest marks from all the show. After his first successful weekend he enjoyed another summer at Murana Stud to be ready for 2012...

Now he will both breed his first mares and continue his show career. He is a son of one of the most successful Straight Egyptian stallions in the world - unforgettable PVA Kariim, and his mother is again the super producing Juna el Bri. PVA Kariim himself has also a second promising son at Murana Stud, not yet shown, but surely he will appear in the future.

This is very nice Straight Egyptian colt Muranas Amir out of lovely Princess Malikah. He is born 2009 and so he will start his breeding and show career in 2012. The first mares are already booked to be bred to this phenomenal young stallion. Because of his nice type and super attitude he is surely very interesting Straight Egyptian stallion for the breeders worldwide...

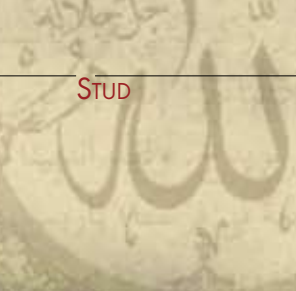

Muranas Mabrouka

But with all their proven broodmares, Michaela and Michael are always looking for something new, and special...Both always liked a lot the steady of Polish breeding! End of October they noticed that one of the most interesting young mares in Michalow State Stud is there for sale. El Arba, a daughter of one no one else then one of the most successful show horses in Poland ever - Emanda, and also maternal half sister to double World Champion Emandoria! So after a small conversation the decision was made and El Arba will be added to the gorgeous broodmares band at Murana Stud, and will be bred 2012 with the very exotic stallion Muranas Jassehr, to produce some special foal in the near Future...

So the 2012 seems to come again as really exciting year! Surely it will be great again with eight foals awaited by world famous stallions like: Muranas Jassehr, Psytadel, Ibn Alzeer al Rayyan, Stival; the first breeding season for Muranas Jameel and Muranas Amir, and of course hopefully healthy babies born...

The first are expected beginning of February so stay tuned with Murana Arabian Stud - visitors are always welcome to see the breeding program and enjoy the beauty of Arabian horses... And Michaela and Michael are already thinking about the Adventure 2012!
