

Mirwanah

Kallisté

Mirwanah Kallisté was born in August, late in the year. All those around her were immediately dumb with admiration when looking at her beauty and the perfection of her features. She was the Gift of the Year... The new French bred jewel by famous breeding farm Kallisté Arabians, managed by the youngest European breeder of Arabian horses for high level show competitions, Jennifer Dhombre. Kallisté Arabians is also home to French, European champion, and Bronze Medal at the World Championship, the acclaimed stallion BS Specific.

To be honest this divine filly has a great heritage : she is the true heiress of twice World Champion and sire of world champions : the great Marwan Al Shaqab. Her mother, the very beautiful, multiple champion and moving machine, Nakubaya Kossack is the grand-daughter of legendary Kubinec, son of the excellent Balaton, her father being the very good sire Kubay Khan. The union between these two beautiful horses is very successful as they gave us a dream of a filly, a true unique pearl who inherited the best from her parents.

Mirwanah Kallisté's story is special. She is a marvel who carries on herself all the hopes of a breeding farm... and who goes over all the expectancies.

So the beautiful Mirwanah was born late in the year. Often foals who are born late have a handicap as the differences in size, development and, sometimes, mind can last until they're three. However Mirwanah enjoyed some spare months before entering the competition rings. Weaning was difficult for this princess. Fortunately she was given lots of affection and her feelings towards humans increased. We couldn't help but notice her happiness, her kindness, the way she "performed" when in her pasture, her powerful gaits proving she was her mother's daughter and their suppleness and lightness inherited from her father. An impressive Show !

Early this year, when she was two, Mirwanah went to Schoukens Training Center. There she met her trainer and handler, Glenn Schoukens, in March.

Mirwanah is a very special filly who attracts all those who come close to her thanks to her imposing bearing, her affection and her splendor. She created her own "hugging" team at the training center and her first supporters, like her groom Rosie.

Mirwanah entered the competition for the first time in Bordeaux for the international B Show. That will remain in everybody's mind. Tension was at the highest as Kallisté Arabians' jewel was about to appear in front of all the amateurs, breeders and Arabian horse lovers. Our Beauty behaved extremely professionally, and although completely unexperimented, Mirwanah surprised us all as she listened, posed and concentrated. Moreover she astonished and seduced the audience ! And she won her class and the Gold Medal for her first show ! This first victory brought her friends, entourage and fans a lot of happiness !

But it was only the beginning for Mirwanah. She is full of surprises and her high qualities brought her forward during the very renowned international A show in Menton. Indeed, For her second outing Mirwanah made an incredible exploit. Just a year and a half old, with no real experience of competition, she was bold enough to stand next to first-class fillies who had gained experience a year ago, even competing in the Middles East for the major part : her quality matches her professionalism. Mirwanah won her class and the following day she was crowned Best French Horse of the competition (ACA Trophy) and... Silver Medal !

All the French team was overwhelmed with joy ! What an incredible moment and Mirwanah found she had new supporters and admirers : she won many hearts ! People were shaking hands and sharing champagne within "Mirwanah's team". Everyone was marveling at such a performance, including the Valette family, the assistant managers !

Menton 2011 will remain a day that Jennifer Dhombre, the proud breeder and owner of this wonderful filly, will never forget. She wishes to thank all those who supported beautiful Mirwanah Kallisté during this exceptional day !

But the star has still some way to go. Now considered as one of the favorite fillies of 2011, Mirwanah showed her qualities again at the prestigious Elran Cup in Hasselt where she won her class and the Silver Medal for her third competition.

Thus respected and admired, Beauty was heading towards her first indoor competition and one of the most prestigious.... the famous Title Show The All Nations Cup !

Very impressed and with still a limited experience (it was only her fourth show), she still didn't move as the moving machine she is at home, which proves that she can improve a lot... but she managed to be classwinner of the prestigious Title Show !

But the year of competitions is not over. Travelling to Verona, which proved hard on her as it was very long, she competed after a difficult night. Her performance was duly noticed and she won third place 0,5 point from the second and 0,5 from the first. But she was well-supported and remains greatly loved.

Mirwanah has shown she is a world class quality filly. Today she is considered as one of the best and most regular fillies of her generation. She has made French and European breeders very proud of her. For her 6th competition, she will fight at the World Championships in Paris where she is highly awaited for, and will prove again she is one of the most serious competitors among the most prodigious fillies in the world.

*Come and support the ...
Extraordinary Mirwanah Kallisté*
