

Magic Magnifique

ONE OF THE MOST EXOTIC STALLIONS

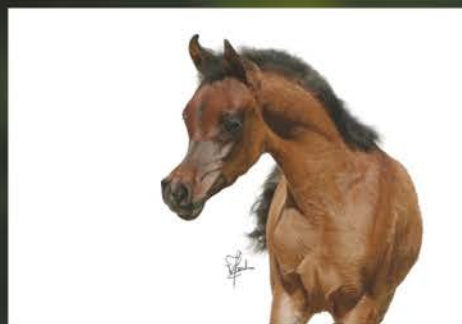

The story from behind the curtain

Magic Magnifique

Magic Magnifique offspring

How it is to be the owner of one of most exotic black stallions ever bred? Is your life much more busy then until last year when you became the owner of Magic Magnifique?

Im a very proud owner to this extraordinary young stallion! I have always been a person who loves to work and loves work hard, but of course my life changes a lot since Magnifique arrived in Sweden, now its even more work. My work as a breeder is now professional. I have now my own European Stable, and I am working close with my veterinary on the farm. We have shippings of semen all over the world. Its also a lot of work in the office as answer bookings, mails and take care of the shippings. Its a heavy but amazing work to be the personal manager to this stallion!

Last year the Arabian horse breeders community was electrified by the news you purchased one of the most exotic black stallions in the world – Magic Magnifique that was already kow by this time from his show successes in Europe.

Can you tell us some „secrets behind the curtain” of this purchase story? How and when did you decide to buy him? Was it difficult?

To decide that I wanted him as my own, was not difficult at all. Have you once meet Magic Magnifique in the real life, you want to be his owner for sure! Im happy and grateful that Ms Claudia Darius and Woody from Ca Di Gianni helped me and supported me in this buisness.

What was your „business plan” for Magic Magnifique when you took a decision to buy him, you already had some black stallions at your farm, why you decided to introduce one more?

Magnifique is a dream for me. I wanted something special. He had what I was looking for, the pedigree, the exteme type, the attitude. For me, his colour is not important. Even If I have a special passion for quality blacks.... This stallion was what I had been seaching for since I started with Arabianhorses.

Did the „business plan” fulfill your expectations until now or there is still something that you are expecting from Magnifique more?

No, Im so happy about him, and what he produce is outstanding! I always belived in him as a sire, but I could not dream that the foals by him should be that special!

I think even a lot of changes happened at your farm since Magnifique's arrival?

Yes. I have a lot of visitors, the Arabianhorses is now my proffesional work, Its the best foalyear ever and the quality of the offsprings is better than ever.

How many breedongs of this stallion you sold since you bought him?

Honestly, I dont know exactly but we have a very big interest worldwide and Im so happy that people like him and his

offsprings. Also the heavy names as breeders has now choose Magic Magnifique in their breedingplans.

Dubai Arabian Stud is now proud owers of Magic Magnifiques exotic and worldwide famous dam, Magic Mon Amour.

And how many foals you bed yourself by Magnifique until now? What is the best cross so far you are most proud of?

This year I have 5 babies and are expecting 2 more. All of them are special! But I got two extra ordinary fillies by him who I just love! The first one is a black longleggy filly with huge eyes and amazing head, BLA Wild Romance out of BS Wild Love (Black Ramon). The second one is a chesnut filly with an very extreme head and a lot of carisma, BLA Kadiva out of WN Kadima (Arn Ett Perlane).

Than, Magnifique has produce some really special babies out of clients mares. So far, he has produced about 80 % fillies all over Europe!

You also planned „Magnifique expansion” overseas using Midwest Training Center. Do you have any interesting news about that cooperation so far?

Midwest Station in the US is Magic Magnifiques agent in the US this year and they got a huge interest in him! Many people in the US is crazy about him and I think he can fit really good with the american mares.

Do you also plan to continue his show career and we will see him competing somewhere this season?

At the moment, he is so busy with breedings and he will not be showed this year. He is just 4 years old and I have no hurry to show him at the moment. I am really looking forward to see his beautiful offspring on the shows in the future!

What the future of Magic Magnifique? Will he travel one day to Middle East or any other very good buyer or maybe you plan to offer him a rest until his last days at your farm?

Nothing is planned about his future. Magnifique is still very young and I want to build up everything around him step by step. But I am not against that he should go to the US, the Middle East, Australia or another continent to be used as a sire in the future.

What is the price for an exotic, good, outstanding look black Arabian stallion nowadays?

Of course, all horses with high quality and especially the very special ones, is not cheap...
