

# Simeon Stud

by Marion Richmond ■ photos by Stuart Vesty

**T**oday at Simeon Stud we are breeding what I believe to be the very best Straight Egyptian Arabian horses we have produced to date.

*As I look around the farm, my eyes are treated to the descendants of our foundation mares and the trio of truly great stallions Asfour, Imperial Madaar and Anaza Bay Shabb. The combination of these horses best attributes, as well as years of hard work, trial and error is reflected in the horses I see around me.*

*Anaza Bay Shabb is the eldest horse at Simeon today, and is a grand old man whom people travel the world to see. They often marvel at his dryness and incredible eyes, both traits*

*he has passed onto his progeny along with a smooth body and excellent feet. We are blessed to have his last foal Simeon Shulchan from Simeon Saadia (Imperial Madaar x Simeon Saada by Asfour). He is truly a gift that we treasure.*

*Anaza Bay Shabb is the grandsire of Simeon Shifran and his full sister Simeon Salit, two of the most precious horses at Simeon today.*

*Our foaling season has finished for this year, and now the months of waiting begin before the next generation frolic in our pastures, fulfilling the dreams of myself and those of our clients around the world. □*
