Our COLLECTION OF the FINEST ARABIAN BROODMARES

In the international scenario of the Arabian thoroughbred, to be able to meet an "old acquaintance" in this our veined world of breeders, such as Dr. Giorgio Andrioli, is not always an easy task.

The outcome of our meeting is a veritable breeder passion which I have found to be very hard to come across.. His freewheeling narrative about his selection plans, his concept of a new standard for a classic Arabian horse which is either straight Egyptian or domestic, to speak of a genotype or, above all, a phenotype, leaves me spellbound and with the account of his almost 20-year experience, together with his wife Maria Teresa, their successes scored by their small horse-breeding activity such as the KHELELSHAMS of Rome, reminds me of the birth of our association and also that carefree attitude that is no longer with us today.

Now, however, I have promised him that I would not have left further space for words and by opening their stable doors to me in a "Paradise" in the outskirts of Rome, I remain spellbound and cannot understand how it is possible to discover all this among the most beautiful brood mares that have enhanced the breeding history of Italy.
